

Calf Milk Replacers

Brown's Feeds offers a variety of milk replacer options to choose from to match your calf raising goals. All milk replacers contain Clarifly® for fly control and Bovatec® as the coccidiostat.

Formulated with:

NeoTec5[®]

- Fatty acid balance
- Specific growth factors

AmNeo[®]
Creating more calf

- Protein sparing amino acid balance

Complement⁺

- Functional globulin milk proteins

Product Mixing Tips

- Water should be warmed to 110°F
- Sprinkle milk replacer powder onto water
- Use wire whisk to agitate milk replacer powder and water
